

## JOIN US IN BUILDING A SCHOOL LIBRARY IN SOUTH AFRICA

A.V. Bukani Elementary School has 1,000 students with a total staff of 29, in a community where few parents are employed. *Yet it is rich in spirit.* Join Eileen and Larry Kugler, who have worked with the faculty and families there for several years, in creating a library for this deserving school. A 40-foot shipping container will leave the U.S. in early summer, filled with 18,000 - 20,000 books. The container itself will become the school's library!

Here is what is needed to make this project a reality:

- Book drives for new and gently-used books at area schools and organizations
- Monetary donations to offset at-cost shipping expenses and purchase new books  
*Great Gift: Make a donation in honor of friend or relative! Eileen will send a personal note to the recipient*
- Volunteers to help organize the books and get them "library ready"
- Donations of book cases, flooring or carpeting
- As shipping space permits, as much classroom supplies as we can ship!
