

Strategies Lab Volunteers Needed

Do you love the challenge of math games? Are you energized by watching creative minds work? Can you find 1 ½ hours once a month to volunteer?

Sign up with your child's math teacher to be a Strategies Lab volunteer. Students attend the lab approximately once a month during their regularly scheduled math time. The classroom teacher will notify you when your child's class is scheduled for the lab.

Our first volunteer workshop will be on *Friday, September 25 at 9:00 A.M.* We will discuss volunteer responsibilities and learn how to play the games. Even if you have volunteered in the past please plan to attend this workshop as we have some new games which we will all be learning how to play together.

If you have questions please feel free to contact Jill Clopton at jill.clopton@fcps.edu.

Volunteer and have fun. The kids love the lab and you will too!
